

Certificate II in Automotive Air Conditioning Technology

National Unit Code: AUR20218 | Assured Learning Australia | RTO 52765

Course Overview:

This highly practical course is for individuals who are required to perform a range of tasks relating to the service and repair of automotive air conditioning components and systems on cars, heavy vehicles, plant and agricultural machinery.

Delivered over two days, you will learn the principles of operation of air conditioning and HVAC systems, refrigerant handling safety and the environmental considerations required when working with greenhouse gases. You will get practical hands on experience servicing and repairing air conditioning systems as well as spending time covering advanced diagnostic techniques, you will also be overhauling, retrofitting and modifying vehicle air conditioning components and systems using our purpose built training aids.

Units Covered:

Units achieved during the course

- AURETU001 Install air conditioning systems
- AURETU002 Recover vehicle refrigerants
- AURETU003 Service air conditioning and HVAC systems
- AURETU004 Diagnose and repair air conditioning and HVAC systems
- AURETU005 Retrofit and modify air conditioning and HVAC systems
- AURETU007 Overhaul air conditioning and HVAC system compressors

Units achieved through RPL or credit transfer

- AURAEA002 Follow environmental and sustainability best practice in an automotive workplace
- AURASA002 Follow safe working practices in an automotive workplace
- AURETR011 Install basic ancillary electrical systems and components
- AURETR012 Test and repair basic electrical circuits
- AURTTA004 Carry out servicing operations
- AURTTA018 Carry out diagnostic procedures
- AURTTK002 Use and maintain tools and equipment in an automotive workplace

Enrolment Requirements:

You must hold an Australian recognised automotive trade qualification or be in the third or fourth year of your apprenticeship and once enrolled in the course apply for a trainee refrigerant handling licence from the Australian Refrigeration Council (ARC). A candidate cannot attend this course without holding a valid trainee licence, this can take up to 30 days to receive from ARC.

Course Fees:

The total cost of the two day course is \$950.00 which includes lunch, refreshments and course notes.
