* This qualification is directly aligned with priority industry areas where jobs are today, and into the future. As part of the state government **Lower Fees, Local Skills program**, through to 31 December 2025 you'll only pay half the tuition fees capped at \$1200, or \$400 if you're aged 17 - 24 or eligible for a concession. Lower Fees, Local Skills are available to residents of Western Australia, and temporary residents holding certain visa types. They are not available for people living outside of Western Australia, or international students. The Lower Fees, Local Skills (half price) discount and fee caps have already been applied to the course fees above.

Note: Fee caps only apply to the calendar year, so multi-semester courses across more than one calendar year may have a higher fee. Lower Fees, Local Skills half price qualifications only apply to the tuition fee component, other fees may apply such as resource fees or textbooks etc. that is specific to your course.

** This is a **2-day course fee** that includes training and assessment for the three (3) air conditioner/refrigerant units. A Statement of Attainment will be supplied, unless credit transfer (CT) and/or recognition of prior learning (RPL) is granted for full certification.

Note: Studying the AUR20220 - Certificate II in Automotive Air Conditioning Technology requires the Australian Refrigeration Council's (ARC) trainee/classroom licence. This application process and fee are separate to Assured Learning Australia's fees and charges and must be individually applied for before attending the course.

*** **If an RPL assessment is required**, an additional payment of \$50.00 per unit will apply. The RPL assessment is available to trade qualified individuals with older AUR, MEM or overseas qualification or those with extensive experience in the automotive industry.
