

AUR20220 Certificate II in Automotive Air Conditioning Technology

Course Information - PIT Funding – for HV Electricians

This course is part of the WA State Government's Priority Industry Training (PIT) Program. The program focuses on making a range of qualifications available that address the priority industry needs of the State through a non-employment-based training pathway.

The automotive sector provides workers with a rewarding career opportunity due to the various types of vehicles and equipment, the businesses and agencies that use them and the areas in which they operate.

The hot climate and extreme areas where vehicles and equipment operate require air conditioning systems to be working optimally for driver and operator safety and comfort.

Entrance requirements

During the course you will develop your knowledge and skills in servicing, diagnosing, and repairing automotive electrical and air conditioning systems.

Successful completion of this program will qualify you as an automotive refrigerant technician and allow you to apply for an automotive Refrigerant Handling Licence (RHL) (AAC02 - Refrigerant Handling Licence) to enable you to continue your career in the industry servicing, diagnosing and repairing automotive air conditioning systems.

In the workplace you will apply your knowledge and skills to safely diagnose, repair and service a vast array of vehicles and equipment.

Learners must not have an active apprenticeship/traineeship training contract registered on WAAMS, must be a permanent resident of WA, or be a temporary resident with certain visa types to be eligible for this program.

You will have six (6) months to complete this course however the package is competency based meaning some people may complete this in less time. There will be a mix of online directed study, face-to-face training and assessment, and gathering workplace evidence.

Each learner will undertake a Pre-Training Interview before enrolling to help confirm the proposed course is suitable. The interview will provide valuable information about an individual's existing skills and knowledge, Language, Literacy and Numeracy (LLN) skills and whether the course will help in achieving learning and/or employment goals.

Fees & Charges

This qualification is directly aligned with the priority industry areas where jobs are today and will be into the future. As part of the state government Lower Fees, Local Skills program, through to 31 December 2025 you'll only pay half the tuition fees capped at \$1200 or \$400 if you're aged 15 - 24 or eligible for a concession. Note: You will pay half price for the tuition fees on the Lower Fees, Local Skills qualifications, however other fees may apply such as resource fees that are specific to your course.

AUR20220 Certificate II in Automotive Air Conditioning Technology Qualification Outline

Core units

AURAEA002	Follow environmental and sustainability best practice in an automotive workplace
AURASA102	Follow safe working practices in an automotive workplace
AURETR112	Test and repair basic electrical circuits
AURTTA118	Develop and carry out diagnostic test strategies
AURETU103	Service air conditioning and HVAC systems
AURETU104	Diagnose and repair air conditioning and HVAC systems

Common elective units

AURETU102	Recover vehicle refrigerants
AURAF002	Read & respond to automotive workplace information
AURAF013	Communicate effectively in an automotive workplace
AURETR006	Solder electrical wiring & circuits
AURETR011	Install basic ancillary electrical systems & components
AURETR125	Test, charge and replace batteries and jump-start vehicles
AURTTK102	Use & maintain tools & equipment in an automotive workplace

Course fees

Based on the Qualification outlines above, the course fees for Concession and Non-Concession learners are as follows:

	Tuition Fee*
Concession	\$144.96*
Non-Concession	\$489.24*
